Inva StairRiser - The Premier Stair Platform Lift

*Part M compliant. Internal or external use. For straight and curved staircases.*

The Inva StairRiser

The Inva StairRiser is a high quality stair platform lift designed to safely carry wheelchairs, and users, on straight and curved staircases. The unit is probably the slimmest unit on the market, is aesthetically pleasing and very reliable.

The unit is suitable for both indoor and outdoor use and can be stanchion mounted, if walls adjacent to the stairs are not load-bearing.

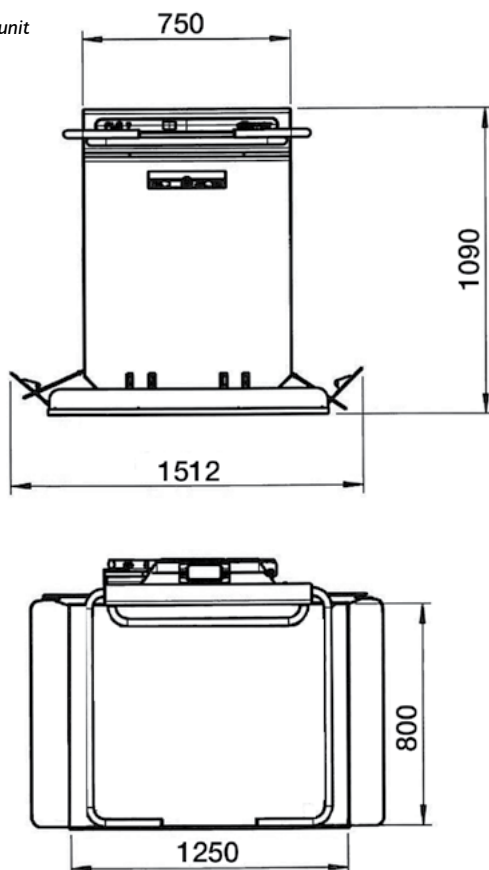

Optional rail-mounted push unit

Features:

- 300Kg capacity
- Speed of 0.11 metres per second with soft start facility
- 1250mm x 800mm platform (Part M compliant)
- Stainless steel rails - upper one can be used to replace stair handrail
- Wireless wall mounted landing pushes
- Slimline elegant design – only requires a space of 250mm from wall when folded
- Barrier arms fold down when parked
- Operates from battery in the event of power failure
- Extremely low power consumption from 240v supply
- Powder coated in RAL9006
- Digital diagnostic display

Options available:

- Stainless steel carriage cover, barrier arms and floor
- External use package
- Smaller platform sizes at no extra charge
- Range of RAL colours
- Powered ramp to give access/egress on long side
- Rail mounted push box
- Hand held wireless controls
- Stanchion mounting (requires extra space of 60mm)
- Flip down chair
- Communication devices
