Subject: Revised drawings re 47 Rudall Crescent 2017/6994/P

The revised drawings for the proposed building extension adjoining my property at 19 Willoughby Road, Nw3 1RT do not meet my objections: the extension is still too close and still reduces the light. The argument that it will be made of glass is not valid as there is plant growth, the glass gathers dirt and there is insufficient room between my structure and that of 47 Rudall Crescent to clean or repair. There is also the nuisance of noise. It is right up against my study where I work and I understand that the extension will be used as part of a dining room kitchen which is noisy.

With thanks
Yours sincerely
Yana Zarifi
