

FIRE POLE ACCESS  
DOORS RETAINED

THE PROPOSED LIFT  
HAS A STRUCTURAL  
GLAZED SHAFT AND  
CAR IN THE  
MANNER OF THE LIFTS  
SHOWN IN THE  
PICTURES ABOVE AND  
RIGHT

THE CONCEPT IS TO  
PROVIDE A LIFT  
ASSEMBLY THAT IS  
HIGHLY TRANSPARENT  
IN ORDER THAT THE  
STAIR MAY REMAIN  
VISUALLY ACCESSIBLE  
AND ITS LAYOUT  
AND MATERIALS  
READILY DISCERNABLE.

FINISH TO BE DARK  
GREY  
AND CLEAR GLASS AS  
ADJACENT

FIRE POLE  
RETAINED

NORTH LIFT ELEVATION
