2018/1137/P	Geoff Stevens	3 Wilmot Place London NW19PP	09/03/2018 14:29:28	OBJ	I hope the planning committee will refuse this application to excavate an extended basement causing substantial loss of amenity to the surrounding properties and users of the pavement of St Pancras Road simply to generate a dark damp residential area unsuitable for habitation. Development of this type should not be permitted in a conservation area
