2018/0755/P	Jennifer Watts	127 Camden Rd	13/03/2018 21:45:55	NOOBJE MAIL	As a local resident, I support the application. The bar being proposed is a small intimate cocktail bar, "grown up" and civilised. This kind of venue should be welcomed. Camden has a night time economy and that area in particular has never been a quiet residential street. It could lead to that small area being smartened up and revitalised.
2018/0755/P	Denise Morton	flat 4 160-164 Royal College Street London NW1 0TA	13/03/2018 11:55:05	OBJ	I Object strongly to this proposal. This is a residential area some properties literally steps away from this site already dealing with constant noise and mess from the large pub directly across the road from this site and the station where people gather all night particularly at the weekend. The large triangle this site stands on will encourage many to gather causing constant disturbance and more mess, We do not need more drinking venues on this junction. Please take the impact on local residents into consideration. Just because it is already a noisy junction as stated in the application, this is not a reason to add more noise. Quite the opposite !!
2018/0755/P	Mike Familyman	73 Anson Road N7 0AT N7 0AT	14/03/2018 22:00:18	COMMNT	Given the large number of venues that have closed in Camden over recent years, the prospect of a new venue is welcoem. I know the KT bar well, and it is well run, safe, quiet and causes no disturbance to local residents. I fully support the application and will patronise this place if planning consent is given
2018/0755/P	David Emery	118 Camden Road NW1 9EE	14/03/2018 23:10:14	COMMNT	I am writing in support of the application. I live in close proximity to this location, within line of sight. This property has been vacant for years and the area would benefit from it's reuse and the employment and amenity if would provide. It is already a busy junction between two main roads, both bus routes, and with all night trains overhead, and there are already 2 bars on opposite corners which operate without causing any noise or inconvenience to local residents. The biggest inconvenience we have been caused in recent years is when one of the premises was empty and used for illegal raves, and given a choice between this property being long-term unoccupied or refurbished for use as a drinking establishment, I think the much better choice is to grant the application and let the place open. If other complainants have concerns about noise from bottling out, that could easily be dealt with by conditions applied to the licence. This is a concern for the Licencing Committee, not a Planning issue.
2018/0755/P	Hilary Freeman	17 Rousden Street Flat 2 Camden Court London	13/03/2018 12:34:04	COMMNT	I live on Rousden Street and we are already surrounded by drinking establishments. As a result, we are often woken by people walking past our windows, singing and shouting or screaming. They also leave glasses and cans on our windowsill, urinate against our wall and sometimes stand outside in groups talking loudly, or bang into our window. We do not want another drinking establishment yards away.
