Dear Nora-Andreea,

**235 Euston Road London NW1 2BU**

Thank you for your communication of 20<sup>th</sup> March 2018.

Though we have no objection in principle to the above planning application there are a number of potential constraints on a site situated close to underground tunnels and infrastructure.

This site is situated close to London Underground tunnels and Highways in this area and over our structures are registered as Streets of Special Engineering Difficulty (SED) with the local authority under the New Roads & Street Works Act 1991 – Section 63.

We will need to monitor any works, including trial holes, carried out over, or adjacent to any of our shallow structures.

The above are to be sent to the following at least 21 days before commencement of any works:
