Design, Access and Heritage Statement  
Existing Block Plan

The Council has considered your application and decided to grant Listed Building Consent subject to the following condition(s):

Conditions and Reasons:

- 1 The works hereby permitted shall be begun not later than the end of three years from the date of this consent.

Reason: In order to comply with the provisions of Section 18 of the Planning (Listed Buildings and Conservation Areas) Act 1990.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans: Proposed Second Floor Plan REVISED  
Proposed Third Floor Plan  
Proposed Ground Floor Plan REVISED  
Proposed Basement Plan  
Full description of works  
Proposed TV Aerial installation  
Site location  
Proposed Roof Plan  
Proposed Finishes to Ground Floor Plan  
Proposed Finishes to First Floor Plan  
Existing Roof Plan (schematic)  
Existing Rear Elevation (Part Only), Rear Extension, Side Elevation

Existing Second Floor Plan  
Existing Third Floor Plan  
Existing Basement Plan  
Existing Ground Floor Plan  
Basement Damp-proofing Repair  
Flooring/Hardwood Threshold Details  
Basement Dry Lining details  
Proposed Secondary Glazing  
Proposed Secondary Glazing Details  
Basement Front Door Security Gate  
Design, Access and Heritage Statement  
Existing Block Plan

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

- 3 All new work and work of making good shall be carried out to match the existing adjacent work as closely as possible in materials and detailed execution.

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 The site's planning history has been taken into account when making this decision

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposal is in general accordance with policies D1 and D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework.

- 2 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (tel: 020-7974 6941).
- 3 You are advised that any works of alterations or upgrading not included on the approved drawings which are required to satisfy Building Regulations or Fire Certification may require a further application for listed building consent.
- 4 Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You are advised to consult the Council's Noise and Licensing Enforcement Team, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (Tel. No. 020 7974 4444 or search for 'environmental health' on the Camden website or seek prior approval under Section 61 of the Act if you anticipate any difficulty in carrying out construction other than within the hours stated above.
- 5 Reason for granting listed building consent: 11 Frederick Street is a projecting end house in a terrace of 10 Grade II listed houses by William Cubitt, dating from c1827-32 and situated in the Bloomsbury Conservation Area. This conservation area covers approximately 160 hectares and is widely considered to be an internationally significant example of town planning, noted for its formally planned

arrangement of streets and contrasting leafy squares.

The application incorporates a number of repair and refurbishment works covered by phase 8 of a phased repair programme by One Housing Group.

Planning permission and Listed Building consent (under application ref 2017/6799/P) are being sought for the following alterations (in addition to other minor alterations identified on the submitted drawings):

- o new basement front door and metal security screen;
- o formation of storage cupboards (ground & second floors);
- o Selectaglaze secondary glazing (locations identified on drawings);
- o a communal satellite dish (painted black) is also proposed to the main roof.

Listed Building consent is also sought for the addition of plasterboard dry-lining on a protective membrane to the existing basement brick walls (external, party and spine walls) re-plastered in the 1980's with sand cement render. The advice of the Building Research Establishment (BRE) is that either the damp render should be hacked off (with the potential to damage the underlying historic brickwork) and replastered, or a damp-resistant membrane should be applied over the damp/defective render and finished with plasterboard dry lining. The latter is the solution proposed as it is reversible and will add only 28mm to the thickness of the wall. Drawings of the critical junctions with windows have been submitted to illustrate how the additional thickness is to be married with existing features, such as window reveals.

Revised drawings were submitted showing the ground floor communal entrance hall non-original cupboards removed and the 2nd floor rear bathroom proposed new cupboard omitted.

It is noted that in earlier phases of the project, a schedule of repairs and window replacement was not requested prior to the applications being approved. This approach is not best practice and going forward, this information will be required prior to permission being granted. In this case, the note relating to defective non-original sash windows being replaced will remain on the drawing, and the required information will be obtained via condition.

It is considered that subject to the applied conditions, that the proposed works will not harm the special interest of the grade-II-listed building.

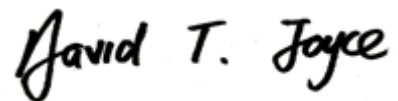

The application has been advertised in the press and by means of a site notice, whereby there were no consultation responses. The site's planning history has been taken into account in making this decision.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013. As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the NPPF.
