Subject: FW: TCR Lamps LBC Decision Notice

Hi Matthias

As part of the planning consent for the removal of the heritage light columns we are required to supply the method statement for approval which is attached.
In order to preserve the integrity of the structures we are cutting the stem off below ground level as they are prone to fracture and inserting a new steel support column. I have discussed this with Alan Wito who is in agreement with this. We are due to remove the next one shortly. Can I therefore ask that you approve the attached

Happy to meet and discuss is required

Kind Regards

Kevin
