

THE VISION-SLIDING DOORS

AWARD WINNING ULTRA SLIMLINE SLIDING DOORS THAT MAXIMISE THE GLAZING AREA AND MINIMISE THE FRAMES AND SIGHTLINES.

The Vision is an advanced sliding door system, with ultra-slim intermediate sightlines of just 24mm.

We offer massive glazed panels 2,500mm wide and 3,000mm tall in extremely versatile configurations.

Twin track, triple track, fixed or moving panels, slide

into pocket cavities, run on extended tracks, flush tracks, movable corner posts opening up infinity corners.

The design specification is nearly limitless.

THE VISION-SLIDING DOORS

We pushed advanced technologies into the design to ensure our doors bettered security requirements and weather proofing capabilities. The precision engineering and smooth operating mechanism of The Vision ensure huge doors can be moved effortlessly.

Panels stack perfectly behind each other to maximise the doors aperture when fully opened. For uninterrupted views, The Vision is the sliding door solution you are looking for.

- **High security multi-point locking exceeding insurers demands and offering easy single handed operation at waist height.**
- **Aluminium frame intermediate sight lines of only 24mm making The Vision one of the slimmest sliding door systems available.**
- **Panels available up to 2,500mm wide and 3,000mm tall with a maximum weight of 280kg.**
- **Twin or triple track configurations available. Flush tracks provide a level threshold (DDA compliant) without compromising the systems excellent weather rating.**
- **Double or Triple Glazed Units with excellent U-values.**
- **The Vision can be complemented by our single doors, French doors, tilt and turn windows and fixed glazed screens, to achieve an aesthetically uniform appearance throughout.**
