4. Trees Ownership

Is the applicant the owner of the tree(s)?

Yes No

5. What Are You Applying For?

Yes No

Are you wishing to carry out works to tree(s) in a conservation area?

Yes No

6. Tree Preservation Order Details

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

T1. Mimosa (Acacia dealbata) Front garden. Belsize lane boundary
Semi mature tree growing very close to house. Subsidence claim. Fell to ground level via sectional takedown.

T2. Sycamore (Acer psuedoplatanus) Rear garden. Behind garage.
Large mature tree not maintained for some time now encroaching on no.55 and neighbouring property under construction. To improve light and clearance and reduce transpiration rates, suggest: Raise canopy height all round by removal of lower tier branches to 5-6m. Prune back from property elevations to provide 4m clearance from all structures.

G1. Leyland Cypress (Cupressus X leylandii) Rear garden, southeast boundary.

7. Identification Of Tree(s) And Description Of Works

Row of overgrown screening trees planted along boundary line fence. To improve light and clearance and reduce transpiration rates, suggest: Reduce heights by 3m and trim sides to contain spread.

8. Trees - Additional Information

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.
