2018/0796/P	Emily Simon	9 ELSWORTHY ROAD	25/04/2018 18:56:44	OBJ	<p>I agree with the comments made by Franciois Findlay in total, speaking on behalf of our Conservation ARea. Also, as we are on the south side facing the house we are particularly concerned that we could suffer adversely from reflection and light pollution.</p> <p>I would also like to comment that camouflaging the front elecvation by showing two tress in full bloom proves the point that there would be a visible alteration that could be clearly seen most of the year.</p> <p>in sum, the introduction of this new roof level should be refused. It does not "fit in" with our Conservation Area.</p> <p>i have been told by the supervisor of the project that they are not going ahead with this scheme, and for this we are grateful.</p>
