2018/1259/L	John Allan	361-373 City Road London EC1V 1AS	24/04/2018 13:12:35	NOBJ	The Isokon/ Lawn Road Flats is an important landmark of modern British architecture, deservedly listed at Grade I for its special architectural and historic interest. Among the many reasons for this importance is its role as a residence and haven for several figures of international stature, notably Walter Gropius, Marcel Breuer and Laszlo Moholy Nagy. It is accordingly fitting that their illustrious presence should be marked with a Blue Plaque that will record this remarkable episode and bring it to the attention of the passing public. The proposal has my wholehearted support. John Allan, Architect and Chairman of The Isokon Gallery Trust, Former Director of Avanti Architects, Founding Chairman and International Secretary of DoCoMoMo-UK
2018/1259/L	Magnus Englund	32 Isokon Flats Lawn Road London NW3 2XD	25/04/2018 10:43:21	SUPPLET TER	As the Director of the Isokon Gallery Trust that has as its mission to tell the story of the Isokon Building and its history, this proposal has my wholehearted support. The Trust has also been in contact with the decedents of Wells Coates, the original architect of the building, and they also give their full support, so do the decedents of Jack & Molly Pritchard, who originally commissioned the building. The plaque also has the support of the residents of the building both through the Isokon Residents Association and through a written consultation. It also has the support of the decedents of the individuals featured, all who were Masters at the Bauhaus, and important members of the refugee community in Hampstead during the 1930s.
