2018/1382/P	M . Assor	168 haverstock hill nw32at NW3 2AT	23/04/2018 11:25:29	OBJ	Good morning . I am living at 168 Haverstock hill . The owner of flat 170a has already a massive extension . Adding a conservatory would be out of proportion and make us neighbors feel claustrophobic. I believe that adding this extension on an already existing large extension is too much. Please , we need a bit of space and air and decent view from our windows , and we don t want to be surrounded everywhere by an already jammed back yard in this part of the street . If you approve it , everyone else would request for a permission and the all area would be totally over built . I am completely opposed to this extension .
2018/1382/P	Mrs Jane Kelley	2 Downside crescent	26/04/2018 14:46:28	COMMNT	I object to the proposed plan. The building has already been enlarged with the side gap completely filled in to the 1st floor, and the rear extension now occupying 1/3 of the garden. This will be a severe visual loss of amenity to neighbouring flats which overlook it. It will also bring the living area of the flat closer to the side of our house with attendant noise pollution
