2018/1528/P	Alessandro Moro	Grove End Lodge College Lane	25/04/2018 16:20:28	SUPPRT	<p>I support this planning application. The site at the moment is far from ideal, it is a brown site currently de facto used as a parking.</p> <p>I like the design of the proposed building, it has good architectural merit, it is small in scale (much smaller than all previous planning applications submitted) it is sympathetic to the environment and the surroundings and it will make a positive contribution to the area.</p> <p>I like the fact that what is now tarmac will be replaced by a natural lawn with trees and a green roof. This will create a link between the green open spaces around and a green corridor.</p> <p>I suggest the developers pay, as part of section 106, for kissing gates, new paving in York stone or similar (as suggested by some residents of Denyer house), better lighting and for CCTV on the College Lane part.</p>
