

I write on behalf of the Drummond Street Tenants' and Residents' Association to object to the proposed advertising hoarding on the north side of [1 Triton Square](#), facing Longford Street.

Instead, British Land should be required to display photographic images of greenery to replace the greenery that has been removed – as can be seen at the corner of Chester Gate, for example. We have already lost an incredible amount of green space and trees in this area because of HS2.

Yours faithfully

John Myers
