

Kristina Smith

Reviewing the documentation for this application I can't find any trace of an added objection I sent, which wasn't included in my original filing.

Added objection (to proposed cladding)

I strongly object to the proposed cladding fins as they will project both into my garden, 1a Lupton Street, and the neighbouring garden belonging to 1 Lupton Street. There doesn't seem to be any mention of this fact anywhere in the documentation. Surely any extension of a building into a neighbouring property is not permissible.
