| 2018/0563/P            | Belsize Residents Association, Sanya Polescuk | 8a Belsize Court Garages | 28/04/2018 18:54:44 | OBJ             | This application should be refused on two accounts: the design, I.e. the excessive bulk and the approach to Planning System. This disproportionate extension of the building clumsily alters the existing roofscape to the detriment of the Coservation Area. Secondly, this is by no means a Minor Ammendment of the previously approved Planning Application. Instead, it is its significant modification and enlargement. This manipulation of the existng Planning system would create an unwelcoming precedent. If approved, it would pave the way to bypassing the Planning process and enable developments regardless of permissions in the knowledge that once built, the permission would be forthcoming regardless. |
