2018/1682/L	Neil and Julia Thomas	Denbigh Shepherds Lane Compton Winchester SO21 2AD	01/05/2018 22:55:02	OBJ	<p>We are the owners of the Third Floor flat in this house, immediately below the proposed development.</p> <p>We believe that the proposal would be out of character with this listed terrace: the existing house is architecturally consistent as it currently is, but the proposed development seeks to change this. The existing house is a fine period property, which is protected by its listed status and the proposal is for a modern, unsightly addition.</p> <p>We do not believe that a mansard is appropriate on this listed building. The proposed windows and openings at the front and rear do not follow the style of those below. The reference in the application to "building standards" is misplaced and misleading. In addition the flat would still be a one bedroomed flat and so would not be a benefit in terms of housing supply, as suggested in the application.</p>
