2017/6416/P	Nigel Cansfield	31e hampstead lane london N6 4RT	28/04/2018 13:42:53	OBJ	<p>the proposal would create a loss of light to our entrance passage and side elevation windows affecting the available natural light in our living room.</p> <p>also the extended living room would overlook and therefore reduce the privacy to our garden</p> <p>I fail to comprehend how this proposal could be built without scaffolding posts being installed along our side passage entrance. such scaffolding would severely impinge our daily circulation during the duration of the works</p>
