Dear Kristina Smith,

I am writing to object to this proposed development. The impression it makes is of an oversized building being crammed into a not very large plot. In particular I feel that four stories would make other properties in the immediate area look somewhat dwarfed as the norm is three floors. Overall I consider that this is not an edifice which is pleasing to the eye nor one which adds to the attractiveness of this pleasant road.

Yours sincerely,

J. P. SLEIGH
