Dear Sir

We have a flat, no 17, on 5th Floor of the above property.

Recently Deliveroo has established a cooking facility in the building next door and have installed several extra large extractors, about 10/15 feet above the ground, with outlets falling into our open parking area. As a result the food smell blows out and flows up into our flat and other nearby flats. This disgusting smell causes us a lot of discomfort and we have to keep the windows and doors closed.

We would be grateful if you could look into this and trust that action will be taken to have these industrial size kitchen removed from the area, to make the environment more friendly and livable.

Kind regards

Jagdish Shah
