Dear Mr Sheehy and Mr Diver,

Please find attached a video clip and the first of three files of photos of Deliveroo drivers cutting through Dobson Close and driving on the footpath to reach Hilgrove road, taken in March this year.

I hope that Camden will recognise that the food preparation side of the business is inextricably linked to the delivery side of the business and therefore any planning applications cannot be considered separately - i.e. without also considering the impact of the collection/deliveries on the surrounding community.

Best Wishes,

Lis Fields
