32. Provide evidence of staff training for BS5228:2009 (noise, dust, vibration)

All direct staff are trained internally in accordance with BS5228, COP for noise and vibration control on construction and open sites with direct reference to Regulation 8 of the Control of Vibration at Work Regulations 2005 for employee health.

All sub-contractors are to provide evidence of their own training in respect of CoVaWR, with particular attention to (HAV), (WBV), assessment and management of reducing exposure limits.
