Re: Planning Application No 2017/6788/P
Workshop Rear of 38-52 Fortess Road
-Fortess Grove

I have been shown the new plans for the Depot (StudioB) and would like to object to the changes from the first plans. The wall and 3 windows in Fortess Grove were not to be changed and the roof extension was set back leaving the front part flat so that there would be no loss of light. Why has one window had to be enlarged and new floor with large windows will cut out light and the whole Grove overlooked. I hope you will consider these points at your meeting and also the problems raised by the residents in Railey Mews. We in Fortess Grove already have a lot of building work done in the Grove. P.T.O.

and access is difficult with months of
building work and basement on No 20.
and current work and basement on
No 21 which will be all summer.

Yours Hopefully

(Miss I. Coleman)
