2018/0825/P	M. [redacted] Jones	[redacted]	01/05/2018 13:19:33	OKJHMP/R	<p>I object to the development which, on top of the impact it will have on me, raises disturbing questions</p> <p>I often receive notices from Camden about car's requests to put tables and chairs on the pavement 200 yards away.</p> <p>Yet, astonishingly I was never informed about the works proposed next door to me by the Hilton Hotel.</p> <p>It was only by a fluke that I learned of it while checking an application for other major works starting there.</p> <p>The planned new development will further disrupt my life - as other works at the property have and continue to.</p> <p>It will be and is no less noisy with hotel rooms getting even closer than the ones already facing Bristol House. (We were robbed of light and a skyline of trees when they were constructed.)</p> <p>It will create more noise on top of that which we already endure from the hotel and face over the next 18 months during - in the manager's words - very loud noise.</p> <p>Bristol House is a residential block where people should not have their quality of life wrecked for the sake of a few more hotel rooms.</p> <p>I demand an explanation about why I and other residents in Bristol House were not told by Camden about the latest bid to disrupt our lives.</p>
