| 2018/1325/P     | Jonathan Storey  | 30/05/2018 09:38:48 | OBJEMPER | I strongly oppose to the development as at the moment I have daylight throughout all months in the rear window of my property which is open plan and bathes the mezzanine level with daylight. I have no other rear facing windows and the loss of this light would be a huge detriment to my flat and enjoyment of living. It also would greatly impact on any resale value as the building opposite is already noisy and within touching distance.  |
| 2018/1325/P     | susan schulman   | 31/05/2018 00:47:36 | OBJEMAIL | <p>Dear Sir/Madam,</p> <p>I would like to note my strenuous objection to this proposed development.</p> <p>[REDACTED] 2 or my bedrooms look back to the White Bear development. Doing as you propose would eliminate the light in my bedrooms and on my mezzanine while bringing the building in even greater and suffocating proximity, increasing both noise, disturbance while also reducing privacy. The consequences of all the above and of losing all my light would be insufferable and damage our well-being in our own home while also severely, gravely diminishing the value of my property. As such, the proposed addition and spiral staircase are resolutely objectionable and unacceptable.</p> <p>I thank you for taking account of these objections and rethinking your plans.</p> <p>best,</p> <p>Susan Schulman</p> |
