2018/2087/P	Stuart Paterson	15/05/2018 20:47:34	SUPPRT	I support this project
2018/2087/P	Catharine Wells	19/05/2018 14:11:24	COMMNT	I fully support this application
2018/2087/P	Susan Seymour	15/05/2018 22:17:28	SUPPRT	I am in support of this. So impressed by their first installation on St Anne's church in which I invested. The community is right behind PUNL
2018/2087/P	Susan Seymour	24/05/2018 07:34:46	SUPPRT	This sounds a great idea, reducing costs for the centre and in keeping with the kitchen garden in practical examples of ecology in action. Charging electric vehicles for the park would add the prospect of quieter movement in a peaceful place.
2018/2087/P	Catharine Wells	19/05/2018 14:11:02	COMMNT	I fully support this application
2018/2087/P	Catharine Wells	19/05/2018 14:11:18	COMMNT	I fully support this application
2018/2087/P	Susan Seymour	15/05/2018 22:17:46	SUPPRT	I am in support of this. So impressed by their first installation on St Anne's church in which I invested. The community is right behind PUNL
2018/2087/P	Denise Searle	24/05/2018 16:46:58	SUPPRT	<p>As a Camden resident who regularly uses Waterlow Park, I would like to support Application No. 2018/2087/P for the installation of 127x solar photo-voltaic panels to the existing roof of the park centre.</p> <p>The renewable energy to be generated by the proposed installation could be used on site to reduce energy costs, saving over 12 tons of carbon dioxide emissions annually and resulting in financial savings for the Centre and London Borough of Camden, through reduced energy supply costs.</p> <p>I understand there is also the possibility of installing battery storage to cover night-time electricity use, including the charging electric vehicles, which would be an added benefit in helping to tackle air pollution in Camden.</p>
2018/2087/P	Catherine Max	15/05/2018 17:53:46	COMMNT	I am pleased to add my support for this proposal which is in line with the council's environmental commitments, with potential community benefits. Waterlow Park and the Centre are valued community assets which will be further enhanced by the installation.
2018/2087/P	Catherine Max	15/05/2018 17:53:44	COMMNT	I am pleased to add my support for this proposal which is in line with the council's environmental commitments, with potential community benefits. Waterlow Park and the Centre are valued community assets which will be further enhanced by the installation.
2018/2087/P	Kelly PAWLYN	17/05/2018 11:02:13	SUPPRT	Another excellent proposal by Power Up North London enabling public buildings to sustainable source energy and demonstrating how solar panels can be sensitivity incorporated
2018/2087/P	Kelly PAWLYN	17/05/2018 11:02:11	SUPPRT	Another excellent proposal by Power Up North London enabling public buildings to sustainable source energy and demonstrating how solar panels can be sensitivity incorporated
