2018/1325/P	Trish Dickson Peters	05/06/2018 11:33:39	OBJEMAIL	<p>The little direct sunlight daylight that I presently enjoy will be further eroded by this proposed development. If this proposal is allowed to proceed. Our only source of light from the terrace will become a virtual cave making our flat windowless.</p> <p>The idea of being effectively buried beneath this sprawling development appals me.</p> <p>Aside from material and detrimental impact on quality of life caused by this massively increased noise and disturbance, this will also have a major impact on the re-sale value of our property as a consequence.</p> <p>Summers Street Lofts is an important building. As such, we have to pay a premium to keep it in the style and manner rightly reflecting the original vision of the architect and builder. I think therefore that this approach should also be taken to the buildings almost within touching distance of its' rear elevation.</p> <p>I would be delighted to welcome you to view the property and aspect for yourselves. I think that such a visit would be most illuminating, unlike this proposed scheme.</p> <p>David Peters &amp; Trish Dickson Peters.</p>
