WARNING

Significant hazards relative to the architectural design shown on this drawing have been assessed and highlighted with reasonable skill and care using a warning triangle system.

This drawing is to be read in conjunction with all other hazards/risks which have been identified and recorded within construction phases H&S plan.

It is assumed that all works on this drawing will be carried out by a competent contractor working, where appropriate, to an approved method statement.

Significant hazards are defined as :-

- Those not likely to be obvious to a competent contractor or other designers
- Those of an unusual nature;
- Those likely to be difficult to manage effectively.
