Subject: Objection re: 2018/1325/P

Dear Ms Hazelton,

I wish to express my objection to the above planning application:

It will not only completely cut out the light in the hallway and will thus significantly change the ambiance of the building, but I'm certain that it will also reduce the value of the properties in 1-10 Summers Street.

I believe the plan doesn't meet the BREEAM standards for development and Camden Councils own pre-application guidance and on these grounds alone should be rejected.

I am also not sure if the proposed development takes into consideration Camden's Local Plan Policy A1 which invites planning applications to ensure acceptable levels of natural light are available, as this will cut it out altogether.

Best regards,
CS Henne
