>>

>> Dear Zenab

>>

>> I write with reference to the above planning for 100 Avenue Road. Since it is not currently known when or even if the development go ahead as planned, Camden Council must conclude that the demolition site for indeterminate period, with a known outcome, would, by their own definition, cause harm to the community and amenity and in any case we consider the major material alteration to the original plan and not a minor one. Therefore permission to very condition 31 must be refused.
