2018/2465/T	Crispin Gray	22/06/2018 12:45:26	OBJ	<p>[REDACTED]</p> <p>We are completely against the felling of these trees in front of the building. We implore you, do not do this. The world is ugly enough as it is & trees are one of the few things that makes life in a city bearable. Gilling Court can hardly be described as a beautiful structure. Please dont remove the very things that actually make it (& the entire street) appear a more attractive environment. We were apalled when they removed trees in front of Homefield Court (Gillings twin) & indeed it looks far, far worse for it. Again, please do not do the same to Gilling Court. Sincerely, Crispin Gray & Elisabeth Orion-Gray</p>

2018/2465/T	Jill Tyrrell	19/06/2018 10:04:07	COMMENT	<p>The applicants have not submitted any evidence to fell the single stem lime TPO C1186 and I do not think permission should be given to fell it. The subsidence is only appearing around the front door area of the building.</p> <p>Regarding the multi-stem lime TPO 763 the applicant would appear to have evidence that this tree is causing subsidence. If permission is given to fell this tree the applicants should be required to drill out the roots and replace the existing tree with another suitable tree.</p>
2018/2465/T	Julia Murray	19/06/2018 10:47:25	COMMENT	<p>The applicants have not submitted any evidence to fell the single stem lime TPO C1186 and I do not think permission should be given to fell it.
