| 2018/2628/P | Cal McCarthy | 24/06/2018 21:38:44 | OBJ | This building will completely block any natural light/view entering adjacent building (Plimsoll Building) [REDACTED] |
| 2018/2628/P | Carl Schmackenberg | 26/06/2018 12:04:57 | SUPPEMAIL | The link to the page to view related documents just says there is an error and documents aren't available at the moment. Can you please send me the documents [REDACTED] |
| 2018/2628/P | Victoria robinson | 24/06/2018 11:25:10 | APP | The only sunlight for the front section of the plimsolls building is before 12 am. A 12 storey building meters away would mean no sunlight at all. The flats on the front side of the plimsoll building are all key workers and families, in addition to the noise that it will generate with a theatre late in the evening, an addition of a wrap around terrace at level 5 would mean people looking straight into [REDACTED] glass fronted lounge from only yards away which will severely affect the privacy of the residents that live on wollstonecraft street not to mention the school. |
| 2018/2628/P | Alex Taniewski-Elliott | 24/06/2018 11:46:05 | COMMENT | <p>Dear sir/madam,</p> <p>My wife, young family and myself (two shall children aged 3.5 and 1.5) and [REDACTED] of the plimsoll building on the Wollstonecraft street side of the building, N1C 4BT.</p> <p>We have serious concerns about the proposed plans for this building in particular its height and sheer size on the plot, it will entirely overbear the space completely occluding residents right to light and, given its close proximity, privacy.</p> <p>The proposed terrace at 5th floor level will in particular have bearing on privacy and I would be extremely grateful if Camden planning consent consider the rights of residents in the regen zone particularly in our side of the Plimsoll Building which will be most affected by this building</p> <p>Yours faithfully</p> |
| 2018/2628/P | Greg Lee | 26/06/2018 12:54:21 | OBJ | I am concerned about the affect the proposed 5th floor terrace will have on the Wollstonecraft Street residential privacy. The proposed design places a public terrace directly opposite bedrooms and living rooms. Residents cannot be expected to keep their blinds / curtains drawn at all times to avoid but will have in order to avoid strangers being able to see directly into their homes. |
