The committee looked at this last night and have the following queries:

about 8-10 years ago the original Vernon House was divided into three new houses (possibly 9, 10, and 11 St Marks Square) and we think there was then a condition that the remaining part of Vernon house should remain a hostel, with protected keyworker housing for nurses. is this to be retained within the current application?

there has been recent press coverage about 5-8 Vernon House ceasing to be a nurses hostel and to be developed for private residential

this application does not ask for a change of use so we wonder what the current works are for

as there is no change in the small units here, we wonder if there is an airbnb plan, a student housing plan or a small pied-à-terre private housing plan

We do not wish to await enforcement on this so request that you ask the applicant the questions above re this application which we find confusing for the above reasons..
