Subject: APPLICATION No.2018/2167/P

I wish to lodge an objection to APPLICATION No.2018/2167/P
PROPOSAL TO ERECT A CONSERVATORY ON ROOF TERRACE
AT 40 Shirlock Road, London, NW3 2HS?

My name is Ivy Weaver. I live [REDACTED] to No. 40.
Both properties are terraced properties in Shirlock Road. Both properties have high extended
brick extentions with roof terraces on the second floors. The extensions lead directly from
each main house in the rear gardens. My kitchen window is at the apex [REDACTED] so I
get little daylight as it is overshadowed by both extensions.

The applicant, at No. 40 to build a conservatory from his roof terrace upwards and lengthwise
along his roof terrace would mean the conservatory casting more darkness down to my
kitchen window and obliterating daylight.

I feel the applicant's current proposal is far too grandiose for the size of the roof terrace.
The loss of more daylight to my flat does not bear contemplating.

Ivy Weaver.
