2018/2404P	Frances and Stephen Keane	08/07/2018 18:20:18	OBJ	<p>[REDACTED] We are situated next door to 136 Haverstock Hill.</p> <p>On the top floor of our flat we have two clear glass windows which will be directly overlooked by the side dormer window in the proposed plans. On the floor below we also have a clear glass bathroom window.</p> <p>In considering the application we would ask that the proposed side dormer window be required to be fitted with obscure glass to retain our privacy.</p> <p>The distance between our windows [REDACTED] and those proposed at 136 is approximately 4.5 meters.</p> <p>We bought our flat about 11 years ago with its clear glass windows already long in place. While it is appreciated that the proposed side dormer window will be at the top of a staircase, it would still allow for people to look directly into living areas of our flat and the bathroom on the top floor and also that of the floor below. Therefore without the obscure glass it would greatly affect our privacy.</p>
