Subject: FW: 16A Lyndhurst Gardens 2018/3169/P

Dear Sir/Madam,

Regarding the re-development at 16A Lyndhurst Gardens, we understood that the original approval was based on making the above ground re-build similar to the pre-existing red-brick bungalow, in keeping with it being in a conservation area of red-brick houses.

However, we understand the developer has now proposed to finish in Blue bricks and marble facing, which is clearly not in keeping with this.

I would like to object to the proposed changes.

Please can you advise the status of the application – i.e. has the blue brick/marble facing been approved?

Regards
Richard Powell
