2018/2238/P	Susan Rose Chair Highgate CAAC	09/07/2018 14:57:17	OBJ	Highgate CAAC has some concerns about this application which entails major alterations to the internal layout of a listed property. The Heritage statement does not inspire confidence when it speaks of the alterations saying they SHOULD have no damaging effects and are GENERALLY in keeping. It is true the interior was not inspected at the time of listing but that is no reason for not ascertaining at this juncture the amount of original material , fittings doors , windows etc which remains . The changes to the fireplace in the major sitting room are a case in point as well as all the alterations proposed to joinery etc. The extension proposed is of a very basic design which in no way enhances a heritage asset. It is suggested that Charles Rose should make a site visit in order to gain a better understanding of the scope of what is proposed than can be conveyed by the plans etc supplied.
