Subject: Re: Objection to MIA Planning Application 2018/1335/P

Dear Sirs

I fully endorse and adopt all the arguments made by Ms Raff on behalf of the residents association of Centre Heights.

I highlight a couple of points in addition to the letter by Ms Raff.

1. CENTRE HEIGHTS unilaterally opposes all current, past and future applications made by Mia.
2. CENTRE HEIGHTS is a residential building in a residential area. At no point do any of the residents agree to this becoming the likes of Leicester square and the application is not in line with a residential area.
3. Piece by piece Mia is creating a club/disco. This was wholly denied at the outset by the owners. This needs to be reviewed and the whole picture looked at the progress and direction of applications. The history of such a venue is toxic, disruptive and dangerous for this residential area. We have the right to quiet enjoyment in our own homes.
4. No venue is illuminated in the area. This light penetrates and reflects across the whole area. Centre heights contains some 80 flats. We have the right to reside in peace and without constant applications to change this venue to a very undesirable one.
5. We would respectfully request this application is refused. Again we object to all applications made by this venue. If there are any hearings, we urge these are conducted in the evenings so that residents can attend after work. I have lost revenue due to having to attend and on occasion been unable to attend due to court commitments.

If you have any further queries please do not hesitate to do that me and please do keep me informed of any developments.

Kind regards

Reza Pashazadeh
Solicitor
Chairman Centre Heights RA

Dear John

Please find attached my letter of Objections in regard to Planning Application 2018/1335/P.

I would be grateful if you can confirm that it arrived with 8 photographs.

Please advise: will this application automatically go before a panel of Councillors?

Kind regards

Edie Raff
