## 4. Description of the Proposal

Please describe details of the proposed development or works including details of proposals to alter, extend or demolish the listed building(s):

As a result of a visit by Environmental Health officer and renewal of the HMO licence, the property is deemed unsafe from a fire safety perspective. Therefore, we have, in collaboration with Iain Clarke (Environmental Health Officer at Camden Council) put together a scope of works to make the building safe whilst minimising impact on the listed building. Works include installing FD-30 fire doors, forming a protected escape route, installing mains wired fire alarm/detection system and emergency lighting throughout and a mist compressed sprinkler system to the escape route.

The Basement wall will be knocked through to make the dining room and bedroom a single room with a fire rated wall leading from this newly created bedroom up the stairs. The Glass panel to the staircase from the kitchen will be replaced with fire rated glass. All doors will be replaced with FD-30 fire rated doors with intumescent strips and self closers. The opening between the lounge and kitchen narrowed to fit a single FD-30 door, a further opening will be made in this load bearing wall to accommodate a second FD-30 door leading from the staircase to the lounge.

Each bedroom and communal area will be fitted with smoke detectors and alarms linking to a panel by the front entrance door.

Emergency lights will be in the communal areas and hallways/corridors leading to the escape route.

Has the development or work already been started without planning permission?
