2018/2442/P	Ursula Owen	19/07/2018 20:32:37	OBJEMAIL	I would like to add one more objection to my previous objections. [REDACTED] 1 Spencer Rise, further down the hill. My ground floor is therefore considerably lower than the one in 1 Spencer Rise. Which means if they start excavating No 1 they will be at a level about 2 and a half feet above my ground floor, which will further make likely destabilising movements. I think an engineer has to come and look at this.
