2018/1759/P	Covent Garden	22/07/2018 20:04:25	OBJ	51-53 Shelton Street is a listed building. The CGCA would like this to be an opportunity to reinstate a more traditional shopfront in keeping with the rest of this listed building. It is unclear from the documents of the shopfront if the front has openable doors but from the plan of the internal layout it does look as though the doors are openable to which we object. Camden Planning policy opposes openable shopfronts as stated in Camden DP (30.8) and Camden CS 7. However this type of shop front is not appropriate to a listed building. We object to the installation of canopies on this listed building.
