

Signage Installation Proposed

Ref LUP/002

The signage will be positioned in such a way that will utilise all existing posts, railings and signage way finders already situated throughout the site. The exact positions are detailed below with photos.

Malet Street Area as indicated on drawing LUP/001

The existing layout of the carpark will facilitate signage to be erected in two locations.

1. Two signs will be affixed to the base of the way finder located to the left hand side of the entrance gate. Identified on the drawing LUP/001 as marker 'A' with yellow surround.

Sign B - 350 x 700 Have you Paid/PCN Details

Torrington Square Area as indicated on drawing LUP/001

Torrington Square currently has three lampposts, 2 on the south side of the street and one on the north side. The camera post location is proposed to be located on the north side of the street directly opposite the lamp post on the south side. This is to maintain the symmetrical aesthetics of the street. The lamppost will match the existing design of the other three to retain the historic aesthetics.

1. Signage will be placed on the front and rear of the way finder located to the left side of the entrance of the gates. Located on the North side of the square as indicated on the drawing LUP/001 by marker 'B' in yellow.

Sign B - 350 x 700 Have you Paid/PCN Details

2. Further signage will then be installed on posts with signage and other fittings already in place. This will tidy up the scene of the area preventing unsightly temporary signage. As indicated on drawing LUP/001 to the east point of the square by marker 'B' with blue surrounds.

Sign B - 350 x 700 Have you Paid/PCN
