2018/2596/P	mr rodney adams	29/07/2018 21:15:41	OBJ	<p>[REDACTED] at the moment , I do use the garden [REDACTED] I am really unhappy with the rear extension going so close [REDACTED] and feel there should be more of a space there ( as there is in the conservatory at number 98) not to impinge on our light. Up until now we had been under the impression as this is a conservation area, extensions of this size would not be permitted, as they face onto the heath, and changes the whole footprint of the house.</p>
2018/2596/P	MR A.SAEED	29/07/2018 21:44:13	COMMENT	<p>My name is Mr Saeed and I am and have been for 21 years a tenant of Camden Council in [REDACTED] South Hill Park. This is the [REDACTED] premises in question and there is a flat above me and in the basement below.</p> <p>There are a number of ways that the plans applied for will affect me in negative ways.</p> <p>1) I Really don't like the thought of having a large flat roof right below and adjacent to my bay window. This not only has a negative impact on the view from window which is where I spend much of my time sitting. It also concerns me from a safety angle. A flat foot would give easy access to anybody trying to break into my flat and given the close proximity to the ally way and Heath this concerns me a great deal.</p> <p>2) As my medical records will confirm (which I can bring to the planning meeting) I have a serious nervous disposition and a problem with anxiety. The building works suggested will seriously impact upon the peace and quiet that I need.</p> <p>3) There seems to be no indication on the plans as to what the outer covering of the new proposed flat roof will be.</p> <p>4) What is the depth of the new proposed extension?</p> <p>5) I find it odd that the property is referred to in much of the planning application as number 96 South Hill Park Gardens when it should be 96 South Hill Park!</p>
2018/2596/P	John Bradley Adams	28/07/2018 12:11:43	OBJLETTE R	<p>[REDACTED]</p> <p>The planed extension would cut much of the light from my kitchen and obscure the view of the trees along the causeway. Since the sun, especially in the winter, traverses the southern path through the sky the extension will cut most of the direct light that I enjoy at the present and have enjoyed for the last sixty years. From the ground floor I find the proposed extension a large slab of building that seems unsympathetic to the existing building, much like the ugly extension in number 94 SHP.</p>
2018/2596/P	John Bradley Adams	28/07/2018 12:11:50	OBJLETTE R	<p>[REDACTED]</p> <p>The planed extension would cut much of the light from my kitchen and obscure the view of the trees along the causeway. 2018/2596P	John Bradley Adams	28/07/2018 12:11:37	OBJLETTE R	I reside in number 98 South Hill Park and occupy the basement floor adjoining the proposed extension. We share a party wall. The planed extension would cut much of the light from my kitchen and obscure the view of the trees along the causeway. Since the sun, especially in the winter, traverses the southern path through the sky the extension will cut most of the direct light that I enjoy at the present and have enjoyed for the last sixty years. From the ground floor I find the proposed extension a large slab of building that seems unsympathetic to the existing building, much like the ugly extension in number 94 SHP.
