Nora ,

My earlier objection is on file and it seems totally relevant still . Once again as a Director of KCL , I fully endorse the comments below naturally . Safety for our visitors , particularly schoolchildren & older persons of whom there are very many is & must be our prime concern .

As a resident of The White House & Chair of the Keats Grove RA , I am astounded at the total failure by the applicant to take the Council's CMP regulations seriously . I do not know of anyone in Keats Grove having been consulted in any form whatsoever & the recent objections confirm this .

I presume that no meetings have taken place with the Camden Traffic Team either , judging by the nature of the replies from the applicant .

I have read those new objections already placed on the Register , but understand that there are others pending on your file.

I have seen and fully endorse the objection letters from John Rosefield and Gerald Paterson and there really seems no reason to delay your decision any longer in my opinion . No progress appears to have been made by the applicant since 2017 .

I object to the proposals ( and any concealed change of use application ) .

Nigel Steward
