2018/3131/P	Phebe Robinow	01/08/2018 11:00:29	OBJ	I should like to endorse the comments of others, namely that any further loss of green space or space with the potential for greening (as in the placing of planters) is very unfortunate and unnecessary. This part of Drummond St is harsh to look at with concrete walls and, as Transport for London's brief says, compromised (sic) by a four storey hotel. If you must accept the bike stands, please curtail the amount of time they may remain to a short period.
