

The original of this drawing was produced in colour - a monochrome copy should not be relied upon.

BS 5837:2012 TREE RETENTION CATEGORIES

- 

Category A
Trees of high quality with an estimated remaining life expectancy of at least 40 years.
- 

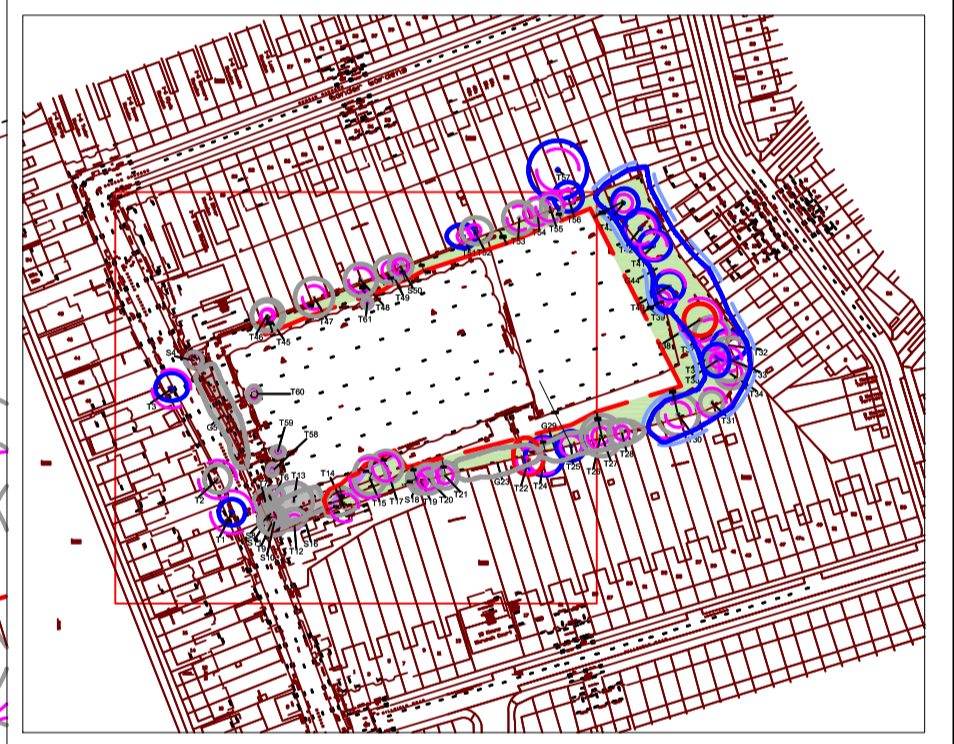

Category B
Trees of moderate quality with an estimated remaining life expectancy of at least 20 years.
- 

Category C
Trees of low quality with an estimated remaining life expectancy of at least 10 years or young trees with a stem diameter below 150mm.
- 

Category U
Those in such a condition that the tree cannot realistically be retained as living trees in the context of the current land use for longer than 10 years.
- 

BS5837 Root Protection Areas
Precautionary areas within which tree roots and soil structure must be protected. All works within these areas will require special methods of work
- 

Application boundary
