## Representations

<b>Consultations:</b>	No. notified	0	No. of responses	1	No. of objections	1
					No of comments	0
					No of support	0

## Summary of representations

The owner/occupier of No's 262 Finchley Road have objected to the application on the following grounds:

- Light pollution

Summary of comments

*The application site is located on a commercial strip where a number of commercial properties have illuminated signage. The objector's property is located approximately 100 metres away from the site on the opposite side of Finchley Road. Therefore, officers do not consider the illumination proposed would exacerbate current levels of lighting at the site and would not have a harmful impact on the amenity of neighbouring residential occupiers.*

## Recommendation:-

**Grant planning permission**
