2018/2123/P	Lee	09/08/2018 11:27:42	COMMNT	<p>We object to this application.</p> <p>This public area of Neals Yard is already hot and noisy from existing condensers and fans from other premises. This addition will only add to the problem and not address how to improve it.</p> <p>It is currently not a nice location to pass through when entering/leaving Neals Yard.</p> <p>There is also a communal bin store in this area and the heat from these existing units does exacerbate the odours,</p> <p>The units are low down and experience has taught us that as such any associated sounds do reverberate and increase as they rise throughout Neals Yard disturbing tenants and residents alike,</p>
