

**Document Title: PROPOSED AMENDMENTS TO THE APPROVED SCHEME (AS PER PERMISSION FOR DEVELOPMENT: 2017/5345/P)**

**Ground Floor**

- Introduced an enclosure to the space underneath the external staircase landing.
- Enclosure to be built in brickwork to match the existing brickwork used on the man building.
- Overall width of enclosure to match width of the stair flight nearest to the existing building.

**1502\_530\_Proposed\_South\_East\_Elevation REV B (Front Elevation)**

- Added Proposed extension – brick wall to the space underneath the 1<sup>st</sup> floor landing – 2237mm high and 1350mm wide.

**1502\_533\_Proposed\_South\_West\_Elevation- REV B**

- Added Proposed extension – brick wall to the space underneath the 1<sup>st</sup> floor landing – 2237mm high and 4265mm long.

**1502\_531\_Proposed\_North\_East\_Elevation REV B**

- No change

**1502\_532\_Proposed\_North\_West\_Elevation-REV B**

- Added Proposed extension – brick wall to the space underneath the 1<sup>st</sup> floor landing – 2237mm high and 1350mm wide.
- Aluminium louvred door fitted within the brick wall – for ingress and egress as well as to ventilate the space. Finish to aluminium to match existing external doors – RAL 1035
